

# Siege Run: Tower Defense Game

One drive link for the project - [Final Project](#)

Website for my game - <https://v0-siege-run-website.vercel.app/>

## Objective of the game:

The king should destroy the castle gate before his health and time runs out. There will be enemies attacking the king, he should navigate strategically to move forward.

## How to play:

1. Use WASD or arrow keys for king's movement
2. Use Space Bar to attack the enemies
3. To regenerate king's health, don't take damage for few seconds.
